General

- Die cut the stencils from card and/or design paper, inking the edges if you like and then attach them with double-sided tape and foam tape as shown.
- The flowers have been die cut, cut in and the petals curled around a tooth pick.
- The edges of the design paper have been distressed with sand paper.

Take a single-fold base card and fold the front panel towards the centre. Layer 12 x 12 cm design paper to the inside, and a 12 x 6 cm strip to the top of the folded card. Die cut an oval frame from kraft card, layer design paper behind and adhere. Add the rabbit, grass, fence, birds and the charm.

Stick the centre of the brown oval onto a Nestability oval from design paper and adhere to the inside. Stamp the text and finish off with flowers and a bird. The front panel will stay upright when placed behind the flowers (see photo).

Use A5-design paper; fold in half with the design inside, fold front half back. Open up the card and lay a Nestability oval in the centre of the left-hand panel, use the folding line to align (adhere stencil with low tack tape). Place the card in the die-cutting machine, place the cover plate on the folding line and die cut only half of the oval till the folding line. Adhere an oval from design paper, mat-

ted on kraft card, to the front. Layer the scalloped oval and design paper to the inside; the oval will fit exactly under the front. Adhere the small frog, flowers, leaves and text. Stick a 5 cm wide strip of design paper to the inside and decorate as shown. Stamp the text. Make a garland of flags and attach with Tacky Glue.
