## Materials used for all cards:

Collectables: COL1444 (Rosettes and Labels), Craftables: CR1336 (Punch die-Autumn leaves), Die cut and embossing machine, Clear stamps: CS1011 (Hugs – EN), Ink pad: VersaMark, Embossing powder: Stampendous White EP100, Design paper pad: PK9127 (Watercolor), PK9159 (Swedish winter), Papicolor card: Recycled kraft grey (322), Original pearly white (930), cerise (933) and nut brown (939), Pearls: CA3132 (white), Rhinestones: CA3136, Thin jute rope

## General instructions:

*For all cards:* start by tracing the outline of the stencil onto white card or another matching colour. Cut out the figure and erase any visible pencil lines. The inner lines of the stencil are used for decorating purposes only. Trace these on the reverse side of card or design paper. Don't forget to use the stencil upside down, to avoid getting a figure in mirror image! Cut these parts out and adhere.

*To make a double card, like the apple and mushrooms cards:*

Trace the outline of the stencil once again and cut out. Make a horizontal score line and fold over at 4 cm from the top of the figure. Glue the folded top part to the reverse side of the first card. Now the card can stand upright on its own.

## Tip:

Does the card not stand up straight properly?

Cut off a small piece of the bottom of the back card to give the card a horizontal part to lean on.
