Collectables by Eline: COL1413 (Snowman), COL1459 (Christmas tree), Craftables: CR1352 (Basic shapes-Label), Craft stencil by Marleen: PS8019 (Christmas bells), Clear stamps: CS0946 (Dutch Christmas carol-Kling klokje kling), Ink pad: Versamark

Trace the outline of the Christmas bells on to pearly white card. First trace one bell and then the second one against it. Cut them out and erase visible pencil marks.

Trace the Christmas bells on to pearly white card again, in mirror image this time, to make the back of the card. Score at 4 cm in from the top of the bells an horizontal line and fold over. Glue this folded top part to the reverse side of the front card. The card can now stand up straight.

To decorate the Christmas bells use the inner lines of the craft stencil. Trace them on to the reverse side of card or design paper. Don't forget to turn the stencil over to avoid creating a mirror image. Cut these parts out and adhere.

Decorate the card with Christmas trees, candles and the snowman. Tie a white bow through the top.

Die cut a label from kraft.

Stamp a text and work with embossing powder and a heat tool. Use baker's twine to tie it to one of the bells.

Add a few snowflakes to finish off the card.

Materials:

Craftables: CR1454 (Cross stitch), Die cut and embossing machine, Embroidery thread DMC: black and gold, Card: brown kraft, white and black

Replace the cutting die to create a rectangular embroidery base. Do this very precisely. Remove all paper from the stencil. Use six strands of black DMC-thread to make the embroidery pattern nice and thick. Leave a length of thread hanging at the back and embroider over it, to start your work neatly. Finish off the card by freehand embroidering a few gold-coloured stars. Stick the embroidered card to a larger black card, trim leaving a narrow border. Then glue it to a larger white, single-fold card.
