Stamp a text in the centre with transparent Versamark ink, sprinkle white embossing powder on top and melt this with a heat tool. Die cut and emboss the wood slices 3x, except the two smallest ones, and work with distress ink.

Assemble the wreath on a separate piece of paper. Place the wood slices in a circle, the largest one at the bottom, the next sizes on top and finally the small ones. Work the wreath with gesso. When satisfied with the result, glue the slices together with foam tape. Adhere white ribbon to the top centre of the design paper and secure the end at the back.
