Method

Cut white cardstock of 12.5 x 18.5 cm. Take a pencil and draw a line at 3 cm from the short side. Place the die on this line and cut it, score and fold the rest of the line. Score a valley fold at 6 cm. Cut design paper of 11 x 11 cm and mat on turquoise. Die cut the circle flower and stich from white cardstock and cut the middle away with a circle Nestabilities die. Paste onto card. Die cut a flower basket from kraft and paste design paper underneath the basket. Attach the flower basket with foampads. Die cut flowers from blue and tissue paper and use a brad to hold them together. Die cut leaves from green cardstock. Attach the flowers and leaves onto the basket with foampads. Stamp a sentiment and make this into a label that you attach to the flower basket with hemp cord. Paste the pearls and butterflies to the card. Stamp small butterflies onto design paper, cut these out and paste them on the card and the handle of the flower basket.

The die has a small indentation on both sides, these indentations are where you place the die on the pencil drawn line.
