

Version I

Materials:

- Craftables Falling Stars (CR1294), Tiny´s Reindeer (CR1289), Tiny´s Pinetrees (CR1287), Filigree Star (CR1284), Klok (CR1234)
- Creatables Tiny´s Pinecones (LRO286), Horizon Pinetrees (LRO283), Anja´s large Oval (LRO239)
- Collectables Birds (COL1311)
- Design Folder Stars (DF3408)

- Snowpaper CA3104
- Kraft paper
- Extra sturdy kraft paper or cardboard
- Pretty Paperbloc Arctic Winter (PK9115)
- Distress Ink: Walnut stain
- Black paper
- A small Brad ,twine
- Scorpalmetric
- Velcro

Version 2

Materials:

- Craftables Clock (CR1234), Filigree Star (CR1284), Tiny's Winter Village (CR1288)
- Creatables Petra's bells (LRO334), Tiny's Pine Cones (LRO286), Horizon Pinetrees (LRO283), Anja's Large Oval (LRO236)
- Design Folder Tire Track (DF3107)
- CA3104 Snowpaper
- PK9109 Kraft paper
- Pretty paper bloc Arctic Winter (PK09115)
- Decoupage sheet Snow Snoesjes (3DHMO65)

Method:

1. Die-cut Anja's Oval twice from design paper and twice from kraft paper. Mark the long sides of the oval at 10 cm from the top and the broad side in the middle. Place the oval with the marked points on the hartline of the Sor-Pal and score it.

2. Cut a strip of 29 x 10 cm and score along the length at 2, 4, 11, 18, 25 and 27 cm. Score along the left and right side an adhesive edge of 1 cm along the length.

3. Fold the scored lines. Cover the middle part with design paper of 6,5 x 7x5 cm. Attach double sided tape on the adhesive edges. Punch four small holes as shown on the photo below (for the pendulum and the weights.)

4. Cut a piece of 14 x 7 cm kraft paper for the roof. Fold in the middle and emboss with the Design Folder. Attach two pieces of Velcro.

5. Die-cut Petra's Bells four times, emboss and distress one of these. Paste the die-cuts onto each other with the distressed one on top. Die-cut Anja's Oval from Snowpaper and die-cut the top with the Horizon Pinetrees. Paste first the snowpaper and then Petra's Bells onto the front of the clock. Decorate to your liking with Tiny's Pinetrees, Tiny's Deer en Tiny's Winter Village. The clock face can be attached into the bough.

6. Cut a strip of 10 x 3 cm for the pendulum and fold into three pieces in the length and paste this round. Die-cut the star twice and attach snowpaper onto the back. Paste the stars onto the bottom of the pendulum. Punch two small holes in the top of the pendulum, thread a piece of twine through the pendulum to attach it to the clock.

7. Die-cut multiple pine cones and emboss and distress the front, paste them onto each other with a piece of twine in between. Thread the twine through both holes in the clock and paste a second set of pine cones onto the other end. It is advisable to attach the pine cone cord before pasting the front of the clock onto the body.
